

Environmental Policy

McMahon Services is committed to the protection and preservation of the environment through the implementation and utilisation of responsible operations and management practices.

We will pursue the conduct of our business in a manner which minimises environmental impact, conserves resources and encourages environmental sustainability.

- Prevent pollution and damage to the environment;
- Actively participate in the improvement of the environment;
- Protect the health and safety of our employees, staff and the general public;
- Understanding client needs and expectations and;
- Comply with the Environment Protection Regulations.

In order to meet these objectives, McMahon Services will implement these measures;

- McMahon Services will self monitor and evaluate our environmental compliance by undertaking audits, inspections and performance reviews;
- Independent verification audits will be scheduled to provide advice on the performance of the McMahon Services Management systems;
- McMahon Services will maintain appropriate resources to ensure compliance with Environmental Management Systems;
- McMahon Services will ensure all appropriate Environmental Protection Agency licences have been obtained and maintained;
- McMahon Services will assist in the research and development of technologies which encourages the protection and enhancement of the environment and community;
- McMahon Services will maximise the use of recycling materials and minimise waste and;
- McMahon Services will review this policy annually to reflect organisational performance.

McMahon Services' environmental system has been developed to suit the specific needs of the company and its clients, in accordance with the requirements of ISO 14001:2000 "Environmental Management Systems – Requirements".

Company management fully supports and endorses environmental system, as described in the company Business Management System manual and associated procedures and work instructions.
